Digitization in healthcare: Noser Health, HIAG Data and Microsoft Switzerland are presenting a joint Swiss solution for the healthcare sector

Noser Health, the eHealth brand of Noser Engineering AG, HIAG Data AG and Microsoft Switzerland GmbH, will be announcing a strategic partnership on December 5th, 2016. The partnership enables Noser Health to offer hospitals, health care institutions and medical practices, private network based software solutions with 100% Swiss oversight.

Digital transformation in healthcare is progressing rapidly. Topics such as "security", "networking", "data storage" and "availability" require custom and secure solutions. In collaboration with its partners, Noser Health offers a platform for "digitalization in healthcare" based on HIAG Data's private network, enabling efficient and secure data handling. Specialized services such as "treatment documentation", "vital data acquisition" and "patient portals" can now be extended with individual solutions. The collaboration with Microsoft brings one of the world's leading specialist for software, services and cloud solutions into the partnership. Noser Health, HIAG Data and Microsoft Switzerland will announce the collaboration and present the resulting solution in detail at the press conference.
