

THE HIVE

CONNECTIVITY

The campus is particularly well located: just a few minutes from the station and airport, The Hive is also served by the main road routes to Switzerland and from France. CERN and the watchmaking campus are just a five-minute walk away.

EXCELLENT ACCESSIBILITY

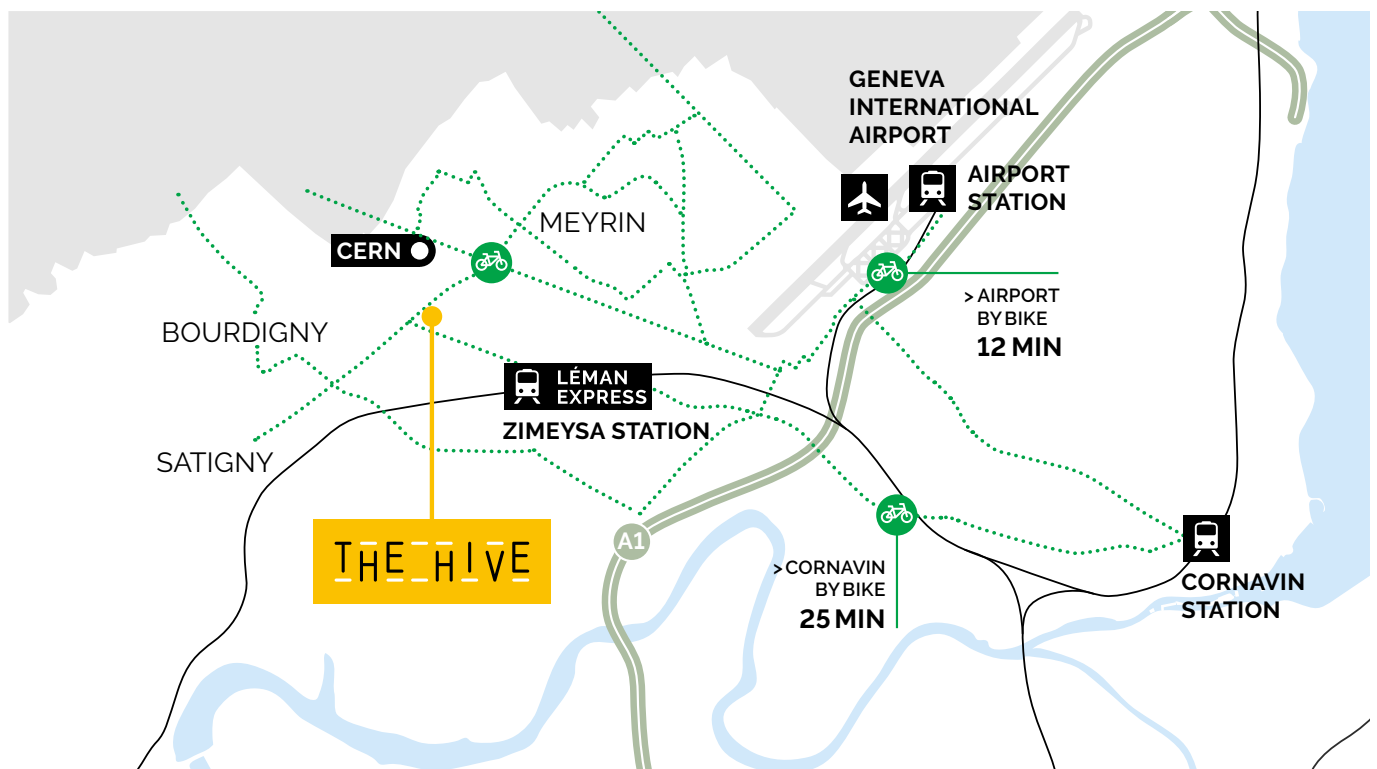

Travel times (by car)

Geneva airport	10 min
Cornavin station	15 min
Rive	25 min
Annemasse	30 min
Nyon	25 min
Lausanne	50 min

SUSTAINABLE MOBILITY

With networks of cycle paths and the TPG bus as a link between the station and the campus, The Hive has chosen to encourage sustainable mobility.

E-BIKES FOR EVERYDAY USE

With its 'bicycle focal points', The Hive offers self-service e-bikes right on the campus for everyday use. In partnership with the Donkey Republic platform, 12 bicycles will be available in three different locations.

SHUTTLES FOR EVERY NEED

Every ten minutes, the 56 and 57 buses offer a link to Zimeysa station in just eight minutes. Every half an hour, the Train Leman Express heads to Cornavin station with a journey time of under fifteen minutes. A private shuttle project is also being examined to link the campus with the station and thus encourage the use of public transport.
